ABOUT LIU

Artistic impression of our Main Administration building scheduled for construction

LivingStone International University (LIU) is a private non-profit Christian University established in Mbale, Uganda. The vision comes from the missionaries of the New Testament Churches of Christ who saw the need to have a greater influence through education so that communities can be impacted for Christ. LIU was granted a letter of interim authority by the Uganda National Council for Higher Education to begin operating in 2008. In March 2010, after vigorous inspections and interviews, a provisional license was granted, which authorizes LIU to admit students and issue degrees. The process of acquiring the Charter is in progress. All degrees have been accredited by NCHE and we look forward to future expansion as God provides. LivingStone International University is seeking to transform Africa through quality Christ-Centered Higher education and the LIU vision is taking shape rapidly with much work to be done. Already, 46 acres have been acquired in a key location on the Mbale to Jinja highways near Mbale. The permanent campus plan development is made up of modern, pristine buildings as part of a master plan designed by Engineering Ministries International to accommodate student growth to 4,000 over 15 years. The university opened the doors to its first class on January 16, 2012 on a campus in Mbale.

What MAKES US Special?

Student/Faculty Ratio

Personalized attention from faculty produces self-inspired high achievers, with the potential to succeed in their chosen careers.

Student's Involvement through the GUILD

Students are well-represented in the governance structure, through which feedback is incorporated into university policy.

Students are encouraged to develop and demonstrate the ability to think critically, analytically, creatively, and therefore, effectively contribute to the learning environment of the world they live in.

Internships

Students are trained in advance and are overseen by supervisors as they undertake different assignments during their internships. By the time they get back, students have gained a first-hand insight on how technology is used to drive enterprises forward.

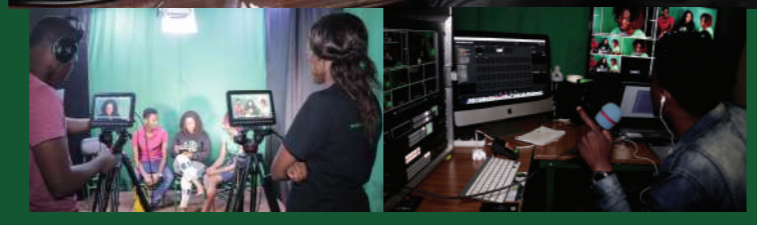

Affordable

Students receive more than market value in return for fees paid to the university.

Our fees policy ensures students are not unduly distracted from their primary function – learning.

State of the art media studios

Library Facilities

We are a technology University with access to electronic learning resources.

Additional reading materials are available in the library as well as our students' electronic devices. Library automation with KOHA integrated systems, which among many benefits has supported OPAC for online resource searching. (Easy browsing without running through the shelves).

Students research using our DSpace repository benefiting both staff and students.

IT Facilities

Advanced e-learning with up-to-date technology.

Students are prepared to provide technological learning leadership and create innovative solutions to global challenges.

Fully equipped computer labs

"As you come to him, the living Stone rejected by humans but chosen by God and precious to him you also, like living stones, are being built into a spiritual house[a] to be a holy priesthood, offering spiritual sacrifices acceptable to God through Jesus Christ."

1 Peter 4: 2- 5

OUR VISION

Ethical, empowered, employable, Christian leaders in every sector of Society

OUR MISSION

LivingStone International University exists to transform Africa through a Quality, Christ-centered, higher education.

Mentoring Programmes

CORE VALUES

Christian: We aim to become a recognizably Christian institution, known for: Integrity, perseverance, faithfulness, service, love.

African – Oriented: We aim to provide a modern education in an African context relevant to Africans and drawing from the best of gifts and perspectives of its countries.

Academic Excellence: We aim at the highest international standards for scholarship and achievement.

Practical: We aim to produce students who are motivated and prepared to produce in the real world for the good of their families, their church, and their society.

Transformational: We aim to be a force for community transformation and development on this continent, targeting every area of human society.
